TULIP, WRAP & BASKET CUPS

All of our tulip, wrap & basket cups are an impressive 65 GSM, which is a much heavier paper weight than our competitors. A thicker paper allows for a stronger, more rigid bakeable cup, while also camouflaging any batter or oils that show through in the baking process. Unbeatable natural cellulose release after baking. These cups are food safe and the best on the market. Formed in Canada with imported European paper for the highest quality cups.

TULIP: Stocked & available in Brown, Natural, White, Pink.

WRAP: Stocked & available in Brown, Natural & both Mariposa Red & Brown.

BASKET: Stocked & available in Mariposa Red & Brown only.

Available in small case quantities at 1000 per case & 10 sleeves of 100 cups.

Custom design and prints available. Add your logo for brand recognition.
